PUBLISHED WORK

Unauthenticated Server-to-Server Implementation

Technical implementation guide for server-to-server architecture in Data Cloud Engagement Web and Mobile SDK.

Time Tracking API Reference Salesforce Interactions SDK — Developer Documentation

Authored comprehensive API reference covering configuration parameters, event output schemas, best practices, and troubleshooting for the SDK's active user engagement tracking system.

WORK EXPERIENCE

Technical Writing Intern

Salesforce

Feb 2026 – Present

San Francisco, CA

- Created 10+ release notes and feature documentation for Data 360, including connectors, APIs, and SDK implementations.
- Automated repetitive documentation workflows using AI tools and custom scripts, reducing typical task completion time from 2-3 hours to 5-10 minutes.
- Owned documentation for Web SDK and Mobile SDK, managing full lifecycle from drafts through publication.
- Organized and optimized documentation TOC structure for improved navigation and discoverability.
- Collaborated with Product Managers and Engineers to gather requirements and ensure technical accuracy.
- Managed version control using Perforce (P4) and tracked work items in GUS, coordinating with engineering teams.

QA Test Engineer

Playtest

Dec 2023 – Jun 2024

San Francisco, CA

- Designed and executed test plans for web and mobile applications, identifying critical bugs and ensuring quality.
- Created test documentation including test cases, bug reports, and QA metrics.
- Collaborated with development teams in agile processes, providing quality feedback during sprints.
